

Making KLOO adjective cards

You make adjective with the yellow cards. Before you start making them, please read the instructions below:

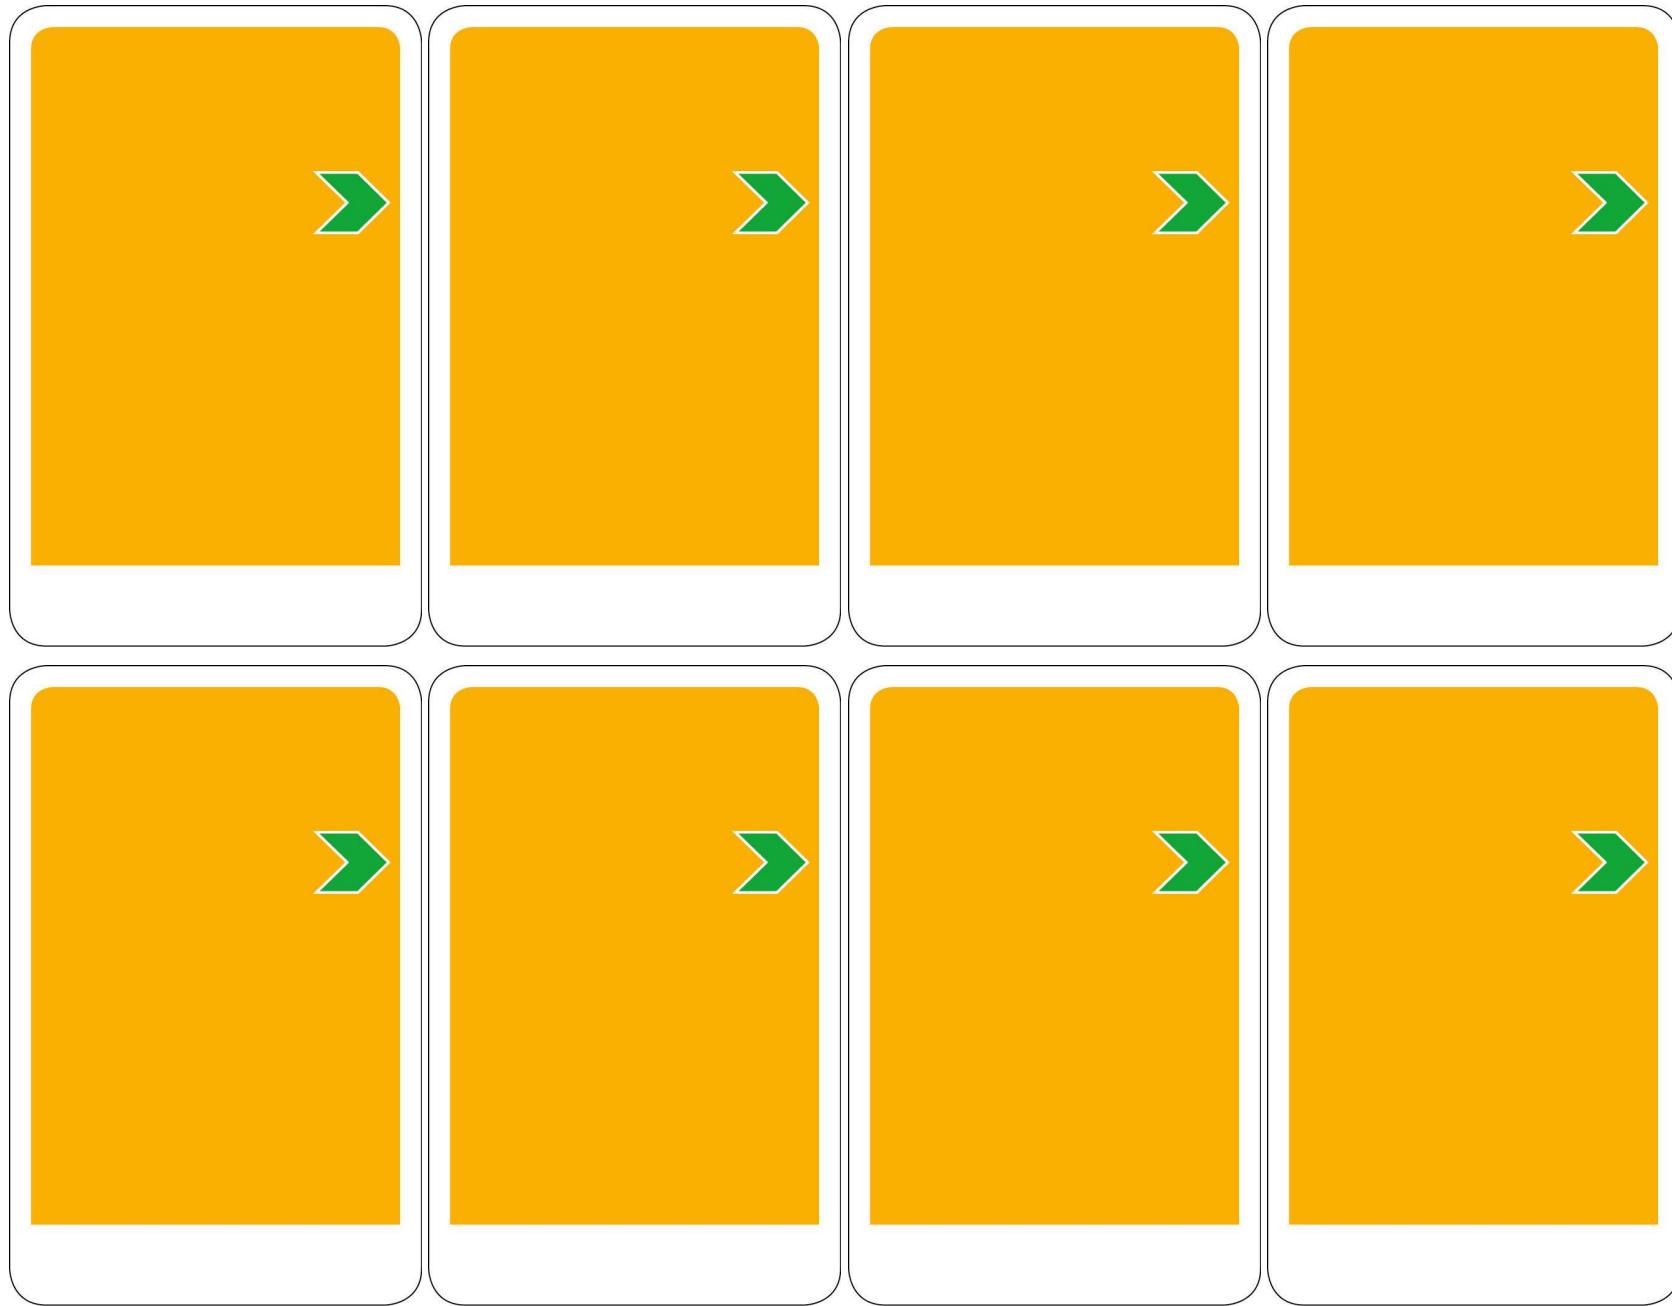

1. **You need to create cards as word pairs** – where one card provides the translation of the other. This creates the *Discovery Learning* mechanic – the most powerful way to build vocabulary. (See <http://kloogame.com/make-your-own>)
2. **Print off and cut out** the blank cards below and then write on your words.
3. **Swap out cards of the same colour** from your deck with the new ones that you make.
4. **Insert your new words into the most appropriate deck theme** (such as People, Eating & Drinking or Places).

CUT OUT AND WRITE ON YOUR NEW WORDS
