

Spanish Conjugation use of usted and ustedes

- You can cut out the following cards and use them in your KLOO decks to practice the formal way of saying “you” in Latin American Spanish.
- In Latin American Spanish, “usted” and “ustedes” are the singular and plural ways of saying “you” formally.
- These formal expressions take the third person singular and plural of the respective verbs ie the same form as the “he” or “she” for “you” singular and the “they” form for “you” plural.
- This means that the KLOO everyday objects decks – which focus on “he”, “she” and “they” forms can also be used to practice “usted” and “ustedes”
- In the following cards we have sometimes abbreviated “usted” to “Ud. and “ustedes” to “Uds.”.
- Finally, we have not included *pl.* and *s.* annotation as it’s always clear that “ustedes” is “you” plural and “usted” is “you” singular.

usted ve

Ud. visita = you visit

ustedes ven

Uds. visitan = you visit
